

# STATE OF IDAHO

## DEPARTMENT OF AGRICULTURE

C.L. "BUTCH" OTTER  
Governor  
CELIA R. GOULD  
Director

TO: Idaho County Commissioners  
Idaho County Extension Educators

FROM: Lloyd Knight, Administrator   
Division of Plant Industries

DATE: April 17, 2015

SUBJECT: 2015 ISDA Grasshopper/Mormon Cricket Program

### Introduction

Grasshoppers and Mormon crickets continue to be one of the most serious pest problems in Idaho rangelands and adjacent croplands. The management and the timely control of grasshopper and cricket populations are high priorities for the Idaho State Department of Agriculture (ISDA) and our cooperators at the United States Department of Agriculture (USDA), Agricultural Plant Health Inspection Service (APHIS). Congress has addressed this issue with special funding to the impacted states of Idaho, Utah, and Nevada. Dan Safford manages the ISDA program.

Detailed information on the amount of insecticide (Carbaryl bait and Malathion) distributed to landowners in 2014 can be found in the 2014 Grasshopper and Mormon cricket Suppression Program Summary at the ISDA Grasshopper and Mormon cricket website:  
[http://www.agri.idaho.gov/Categories/PlantsInsects/GrasshopperMormonCricketControlProgram/ghprogramenvirodocs\\_pubs\\_reports.php](http://www.agri.idaho.gov/Categories/PlantsInsects/GrasshopperMormonCricketControlProgram/ghprogramenvirodocs_pubs_reports.php)

### 2015 ISDA Program Policy

#### ➤ **Field Operations will be a Bait Distribution Program only.**

Farmers and ranchers with infestations will have the option of receiving Carbaryl bait. The landowner will take full responsibility for labor costs, proper application, and storage of the bait. In order for a landowner to receive bait, the land to be treated must be used for agricultural purposes (i.e. grazing, haying, or other types of crop production) and be 5 acres or more in size. All private landowners receiving bait must submit a completed Form 1, Request for Evaluation. Please email the attached fillable PDF form found with this letter to [hoppers@agri.idaho.gov](mailto:hoppers@agri.idaho.gov).

Upon receipt of a Request for Evaluation form, ISDA will inspect the private landowner's property for the extent of infestation. ISDA field scouts will inspect the land in question to determine if bait is to be distributed to a particular landowner. Upon receipt of any bait, the landowner will be required to sign an ISDA bait form, taking full responsibility for the use and storage of the bait they receive.

- #### ➤
- Landowners who receive bait will be required to comply with all label restrictions and requirements, as well as comply with the Idaho Pesticide and Chemigation Law, National Pollution Discharge Elimination System (NPDES) Pesticide General Permit (PGP), and any other applicable state, federal, or local laws. This responsibility also includes strictly following the

insecticide label and proper calibration of application equipment, following all environmental precautions, and properly storing and disposing of the empty bait bags.

- ISDA has the responsibility and the authority to investigate any alleged pesticide misuse, particularly in regard to Carbaryl bait applications, and take enforcement action when appropriate.
- Adequate oversight of the pest suppression program is an expectation. Failure of participants and cooperators to submit the proper forms, such as Request for Evaluation or Bait Distribution Record, as required by ISDA, may result in loss of eligibility to participate in the program or to receive financial assistance.

--	---

We will continue to work cooperatively with counties, extension educators, and our federal partners, USDA APHIS.

The Latah and Nez Perce County Extension offices have agreed to be contact points for private landowners in northern Idaho. In addition, we will have field scouts assigned to northern Idaho to work with the counties, as needed, that are receiving calls from private landowners.

We will be glad to send our staff to special grower/rancher informational meetings in the impacted counties, if requested, to report on the program procedures.

Attached is Form 1, Request for Evaluation, which is used for evaluation of need for suppression of grasshopper or Mormon cricket in Idaho, better known as the "Complaint Form". This fillable PDF form will be used for all initial calls regarding infestations on federal, state, or private lands. Please email this form to [hoppers@agri.idaho.gov](mailto:hoppers@agri.idaho.gov).

Our goal is to serve impacted landowners and encourage judicious use of effective insecticides, while protecting pollinators, non-target species, and sensitive environments.

For additional information, go to the Grasshopper/Mormon Cricket Program at the ISDA website, or click

**Submit**

**FORM #1, REQUEST FOR EVALUATION OF NEED FOR SUPPRESSION OF GRASSHOPPERS OR MORMON CRICKETS IN IDAHO**

If you need any assistance completing this form, please call (Monday through Friday 8 am to 5 pm) the Idaho State Department of Agriculture (ISDA) at 208-332-8620.

Does the property meet the following criteria? A minimum of 5 acres and is agricultural use (rangeland, pasture, crops):

☐ Yes ☐ No

☐ **FEDERAL LAND:** Fax or Email to USDA (United States Department of Agriculture) Boise 208-378-5794, [Rob.R.McChesney@aphis.usda.gov](mailto:Rob.R.McChesney@aphis.usda.gov) or Twin Falls 208-734-7863, [Bradley.A.Newbry@aphis.usda.gov](mailto:Bradley.A.Newbry@aphis.usda.gov). Or mail to USDA APHIS PPQ, 9118 W. Blackeagle Dr, Boise, ID 83709

☐ **IDAHO STATE LAND OR PRIVATE LAND:** Fax or Email to ISDA Boise 208-334-2840, [hoppers@agri.idaho.gov](mailto:hoppers@agri.idaho.gov) Or mail to ISDA, DIV of PLANT INDUSTRIES, P. O. Box 790, Boise, ID 83701

Check one or both: ☐ Grasshopper Complaint ☐ Mormon Cricket Complaint
